

## C# ASSESSMENT

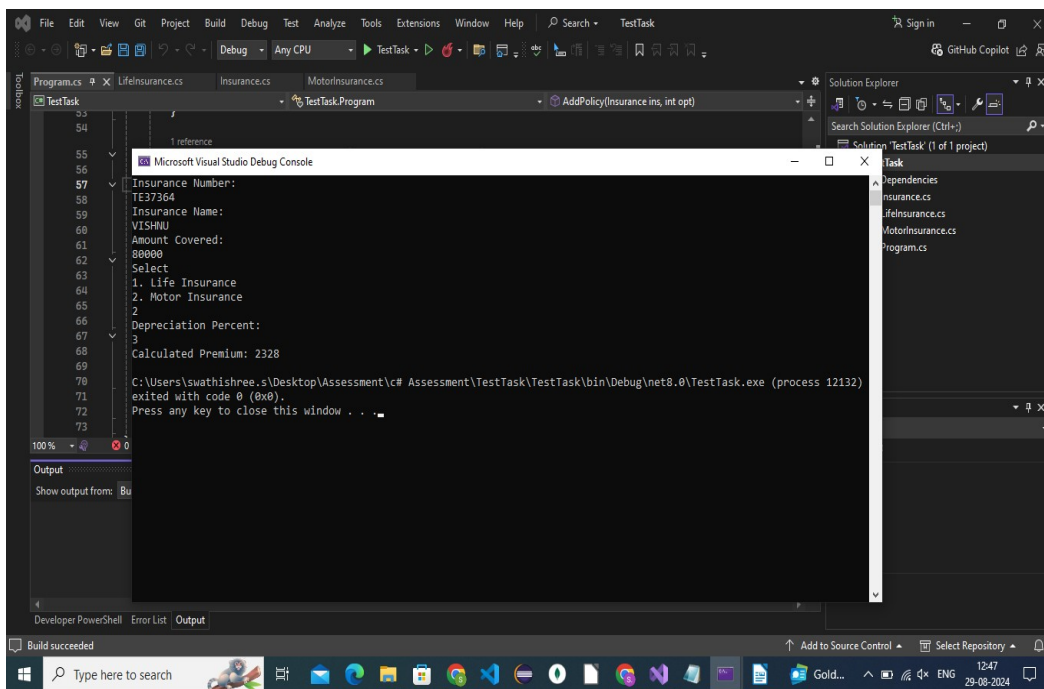

OUTPUT:

The screenshot shows the Visual Studio IDE with the 'TestTask' project open. The 'Microsoft Visual Studio Debug Console' window displays the program's output. The program prompts for the following information:

- Insurance Number: TR123
- Insurance Name: SWATHI
- Amount Covered: 1000000
- Select:
  - 1. Life Insurance
  - 2. Motor Insurance
- Policy Term: 1
- Benefit Percent: 10
- Calculated Premium: 75000

The program then exits with code 0 (0x0). The 'Output' window at the bottom shows the build process, indicating that the build was successful.

The screenshot shows the Visual Studio IDE with the 'TestTask' project open. The 'Microsoft Visual Studio Debug Console' window displays the program's output. The program prompts for the following information:

- Insurance Number: TE37364
- Insurance Name: VISHNU
- Amount Covered: 80000
- Select:
  - 1. Life Insurance
  - 2. Motor Insurance
- Depreciation Percent: 3
